

## Get rid of the Lard Habit

Cottolene makes pies and pastry digestible; it makes crisp, flaky pie-crust—the kind that will melt in your mouth rather than stick in the pit of your stomach.

There is no getting away from the fact that lard is the fat of the hog. There was a time in the olden days when lard was made from a particular part of the hog, the selected part—it was called the "leaf"—that is, the peritoneum; but, with the growth of the industry, lard is now thrown on the market made from fat from all portions of the hog, and lard, today, is not as good as the lard of years ago—in fact it is even more indigestible and more unhealthy.

Cottolene is a cleanly, vegetable product made from pure, refined cotton seed oil. It makes food palatable, digestible and healthful.

Cottolene is the purest and best shortening. It is not a substitute for lard, but an improvement upon lard or any other shortening. When you accept a substitute for Cottolene you are not getting your money's worth. Cottolene is preferable in more ways than one—in purity, results and healthfulness.

Our county shows some signs of improvements notwithstanding the fact the prices of produce have gone down considerably and labor much cheaper than a year ago. Some good buildings will go up in this section within the next twelve months, others are being completed. G. B. Hill is doing considerable repairs on his house and will have quite a good one when finished. Volle Barnwell is putting the finishing touch on his beautiful new residence.

We folks out here are anxious to know what has become of the railroad project and those gentlemen who come out here last fall and told the dear people all they had to do was to vote the bonds that capitalists had agreed to take said bonds and construct a road down through our magnificent country, and work would not begin later than January 1st, 1908. Well, of course the bonds were voted, and we haven't heard from the road or those gentlemen who made such great appeals from every stump in Edneyville Township since, but we are waiting, still waiting, so if you can give us some information in your next issue will be quite thankful, as the S. Bell has cut our telephone connection at Hendersonville.

### Gilliam-Huntley

A quiet wedding took place on Middle Fork last Sunday, in Edneyville Township, at W. F. Huntley's, when Mr. V. L. Gilliam, of Dame, McDowell county, and Miss Eva Huntley were bound in the holy bonds of matrimony by Squire C. Oats. The groom is a prosperous young farmer and the bride one of the leading young ladies of the Middle Fork section and the accomplished daughter of Mr. and Mrs. W. F. Huntley.

### Ten Trains Daily.

The summer schedule of the Southern Railway provides for ten trains daily between Hendersonville and Asheville.

The new train, No. 14, which goes on April 12, will have sleepers from Jacksonville, Savannah and Atlanta, and the passengers for the Lake will have a lay-over here of about two hours, ample time in which to get breakfast and get a sight of the town, before the Toxaway train leaves, about 9 o'clock.

The passengers on the 7:45 train, at night, will lay over here until the next morning or afternoon.

### My Goodness!

Last week this great home paper stated that Tom Jackson had used 52,700 gallons of water—according to the truthful meter recently installed in front of his stable—in two weeks.

Now Mr. Jackson comes along and makes affidavit that he cut the water off, absolutely, from 6 o'clock one night until 8 o'clock the next morning, and the blame meter charged him up with 2000 gallons more, just the same, with the water cut off!

How come?

### Cleanliness and Purity

We spare absolutely no expense when it comes to backing up our motto, "Cleanliness and Purity." We use only clean bottles and absolutely pure extracts. We have just added an extra rinsing. By EXTRA, we mean that our bottles now get one more rinsing than they have heretofore gotten. Other bottlers give their bottles ONE rinsing—we give ours TWO. We guarantee every bottle under the pure food act. Remember, therefore, you drink from clean bottles and absolutely pure beverages when you patronize the CRESCENT CARBONATING CO.

## Shave Your Lawn.

The old way of using cows for lawn mowers is a thing of the remote past, owing to the lack of cows, and then again the low price of lawn mowers has had much to do with it. We have them at prices that will place them within the reach of all, and yet they are good machines. We have the Ball Baring "Cupid" an 18 inch cut, priced \$8.50 that runs as light as an ordinary 12 inch mower. There is nothing on earth that will beat it. Let us show you one.
